

P.H.No. 35/2020

Primary Health Centre,
Meenadom

Health and Sanitation Certificate

I have inspected the site of **Vimalambika Public English Medium School Pampady P.O Kottayam , Kerala** and found that sufficient purified drinking water supplied and other purposes is available in school premise. Provision for disposal of waste materials and toilet facilities separately for girls and boys are provided in the school campus.

I certified that a healthy atmosphere is provided in the school building and its campus. From the public health point of view it is found fit for the functioning of a public school.
